Instructors

Kate Kennett
Director of Safety & Maintenance Programs
TANY

George Damoretcki, CDS
Director of Membership Relations
TANY

Registration Deadline

One week prior to class.
Class size is limited.

Course Objective:

Are you and your team ready for the next big regulatory challenge—adopting electronic logging devices and complying with FMCSA's complex ELD rules?

The government has set the ELD compliance date for December 2017—which means you and your team only have a few months to learn the rules, research the ELD options, train your drivers and office staff, and outfit your trucks with this technology.

The ELD clock is ticking!

This session will address:

1. Why Congress passed an ELD law;
2. FMCSA's complex rules, and how to simplify them for your drivers and staff;
3. Dozens of practical, real-world operational issues and challenges trucking companies face during and after ELD implementation and;
4. How to prepare for and address challenges.

If you have not yet adopted, or are in the early stages of ELD adoption, you cannot afford to miss this important training!
