Legislative

Our state advocacy is focused on protecting our independent LBM businesses' bottom line.

State Priorities – New Hampshire (NHRLA)

- Advancing Buy American-style legislation to promote the use of domestically sourced lumber
- Stopping a mandatory paint recycling mandate that would turn retailers into recycling centers
- Monitoring a potentially costly proposal to require chain-of-custody tracking for lumber products

At the national level, the American Building Materials Alliance (ABMA) advanced several major wins:

- Securing passage of the Big Beautiful Bill, a major federal tax package that includes LBM-specific benefits such as improvements to the estate tax and small-business expensing.
- Rolling out a national housing policy proposal focused on reducing the hidden costs of government red tape, bringing more homes into the price range the average American family can afford.

On the regulatory front, ABMA continues to expand its influence. Through a strong partnership with the U.S. Small Business Administration,

- Fixing CDL driver shortages by addressing expensive, one-size-fits-all training requirements
- Reforming crane certification standards that don't reflect real-world LBM boom-truck operations
- Pushing back on OSHA's proposed heat rule—1,000+ pages of new red tape triggered anytime temperatures exceed 80°F
